EXCELLENT PERFORMANCE, MINIMAL SIZE

In order to meet the requirements of even the **smallest barns**, Sgariboldi has designed a new mixer feeder model which is both **compact and versatile**: the Koala. This machine is designed especially for micro-farms that wish to take advantage of this easy-to-handle and highly effective solution, despite having only a small number of livestock.

Vertical technology and quality mixtures

Ideal for mountain environments as well as a host of other applications, the Koala combines the effectiveness of vertical mixing with exceptionally compact dimensions, in order to ensure rapid and homogeneous mixing with superb fodder value.

- Fast and easy to handle, designed to meet all work requirements
- Comfortable, ergonomic working position
- Available in version with two augers with 4.5 m³ capacity and in single auger version with 2.5 m³ capacity

Standard equipment:

- Yanmar Stage V diesel engine
- Hydrostatic transmission with axial piston pump
- Power steering with Load Sensing system
- Direct side discharge
- Hydraulic door
- Hydraulic system for auger and discharge door
- Industrial planetary reduction gearbox for auger and for wheel drive
- Auger with continuous spiral
- Auger with special blades
- Manual counter - knives
- Retaining ring
